AMEND Senate Bill No. 830

House Bill No. 702*

by adding the following as a new, appropriately designated subsection to Section 49-13-143 in
SECTION 3 of the bill:

() Any charter school authorized by the state board of education whose attrition rate reaches thirty-three percent (33%) or more at any point in the school year shall close at the end of the school year. For the purposes of this subsection, "attrition rate" means the number of students who have been enrolled in the charter school during the school year and are no longer attending but have not graduated from the school divided by the total number of students who have attended the school during the school year expressed as a percentage. Upon the school's closing, any funds that were scheduled to be distributed to the charter school shall be distributed to the LEA in which the charter school is located. The LEA in which the charter school is located shall determine appropriate schools which the former charter school students shall be eligible to attend.
